

INVITATION to INTEC 2025

NEW

Hall 2
Booth I10
intec

Trade fair INTEC Leipzig – March 11 to 14, 2025
A warm welcome to you! FEHLMANN booth I10 / hall 2

Visit us at the INTEC 2025 trade fair in Leipzig.

FEHLMANN presents the new CNC machine for modern 5-axis machining -
the **PICOMAX 550**.

See the benefits of this economically and technologically attractive solution
for yourself during a practical demonstration.

It is ideal for a wide range of manufacturing tasks in small series production,
dynamic 5-axis precision machining and training.

Be inspired by our solutions for simple single part and small batch production.
And experience how easy, convenient and reliable FEHLMANN machines are
to operate.

We look forward to seeing you!

See you soon in Leipzig,
Your FEHLMANN team

FEHLMANN

Your Precision Advantage.®

Milling / Drilling machines for easy production of single parts and small series

PICOMAX 56 TOP

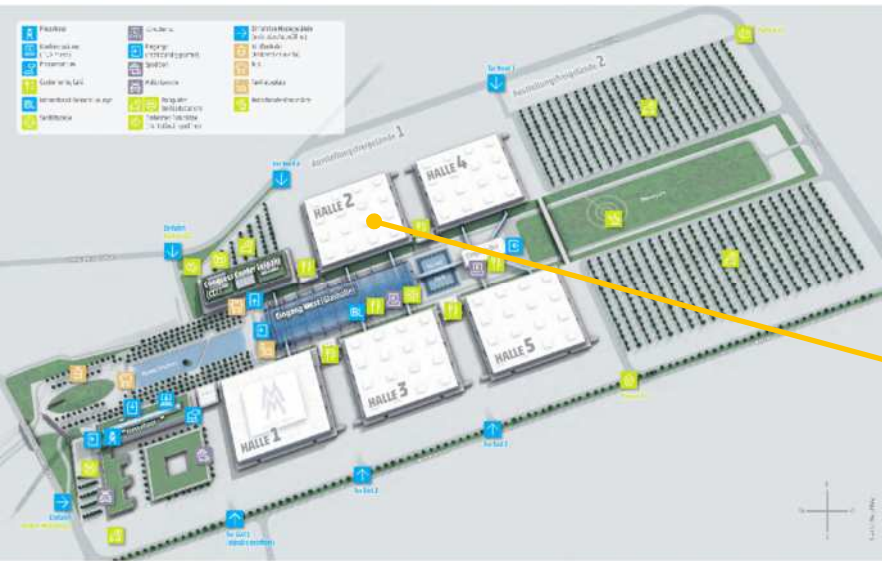

Switch between manual and CNC operation – simple and quick at the touch of a button

- FEHLMANN TOP functions, the entirely innovative operating concept, allowing the machine to be used both for CNC controlled 3-/4-axis machining, as well as manual operation - using drilling lever and handwheels
- Efficient and fast, even without programming knowledge
- Using the Heidenhain TNC 620 Multitouch and the graphically supported cycles, complex parts are machined very economically
- Ideal for the production of individual parts and small batches, as well as for practice-oriented, modern training (CNC introduction)

PICOMAX 21-M

With feed table – quick, safe and precise

- Ideal for training and production of single pieces as well as small series
- Bolt hole circles, dot patterns and rectangular pockets - ultra-rapid and precise positioning manually, as well as automatically
- Digital display with touch screen
